EDUCATION

- **B. Tech in Computer Science and Engineering** | SRMIST, Chennai | **CGPA: 9.06/10** (May'2026)
Relevant Coursework: Object-Oriented Programming, Databases, Discrete Mathematics, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Agile Methodology, Design Thinking.

SKILLS

- **Languages & Skills:** Python | C | C++ | SQL | HTML/CSS | AI/ML | LLM's | API Automation.
- **Frameworks & Libraries:** PyPDF2 | Tensor Flow | Keras | Streamlit | React | Selenium.
- **Developer Tools:** MySQL | Google Colab | Jupyter Notebook | GitHub | Microsoft Office.
- **Soft Skills:** Problem Solving | Innovation | Leadership | Teamwork | Adaptability | Growth Mindset.

WORK EXPERIENCE

Machine Learning Intern | NIT TRICHY (On-Site) (May'24 – July '24)

Deep Learning Model for Skin Cancer Detection and Classification | [GitHub LINK](#)

- Developed a **Convolutional Neural Network (CNN)** for classifying skin lesions using the **HAM10000 dataset**, achieving over **62% validation accuracy**.
- Employed **data augmentation**, **class balancing**, and **regularization** to enhance model performance and robustness. Tested the model using **10,000+** images.
- Applied **TensorFlow**, **Keras**, and **Google Colab** for model development and computational tasks.

PROJECT WORK

Automated PDF Data Extraction Tool | [GitHub LINK](#) (Aug'24)

- Automated PDF data extraction to Excel with over 72% accuracy in text recognition, processing 500+ PDFs. This product reduces manual entry time by 80%, enhances business workflows for faster data management.

Inventory Automation System | [GitHub LINK](#) (Nov'23)

- Implemented innovative automation tools within the inventory management framework for business application which reduced time spent on updates by 73%, enhancing overall client interactions during peak periods.

Hospital Management System | [GitHub LINK](#) (Oct'22)

- Designed an efficient hospital management software through C++ that streamlined appointment scheduling for more than 1,000+ patients while maintaining the hospital records enhancing user-friendly experience.

ACHIEVEMENTS

- **Advent of Code 2024 - 10th Rank globally** among 3 Lakh+ participants around the world. (Dec'24)
- **Pair Programming hackathon** organized by **JA Assure (Singapore)**. (Aug'24)
Finalist in a 72-hour Hackathon with 130+ teams and 260+ participants, developing "PDF Data Extraction Tool" using **AI/ML**, while leading **task delegation**, **coordination**, and **project completion**, gaining skills in **leadership**, **teamwork**, and **time management**.
- **Winner - Best project award** at **RAEEUCCI'24, International Conference**. (May'24)
- **Winner - Led a team of 8 members** and won **best project award** at **TechKnow'23, SRMIST**. (Apr'23)
- **Gold Medal** in Robotics at **First Lego League** held at **Hindustan University, Chennai**. (Oct'17)

POSITIONS OF RESPONSIBILITY

- **Student Coordinator & Organizer** | Bureau of Indian Standards, SRMIST Chapter. (Jul'23- Present)
- **Technical & Corporate Member** | IEEE, SRMIST 'SB. (Mar'23-Present)
- **Innovation Space Mentor** | Regional Science Center, Tirupati. (Feb'17-Present)

CERTIFICATIONS

- **COURSES:** [Google Data Analytics](#) | [AWS-Machine Learning](#) | [Python](#) | [Database Management Systems](#) | [Java-NPTEL](#) | [Computer Networks-NPTEL](#) | [Oracle Cloud Associate](#) | [Google Technical Support](#) | [Goldman Sachs Job Simulation](#)
